1 Introduction

This introduction was taken as part of the [Spatial.ly: R Spatial Tips](#) site. The site was built to give R users an introduction into spatial analysis using R.

1.1 Packages Required

This analysis uses several packages in the analysis.

1. **ProjectTemplate** library to manage the files and structure of the project.
2. **maptools** and **rgdal** as required on [this page](#).

1.2 Files downloaded

The [London Sports Participate shapefile](#) and [London Cycle Hire Locations](#) are downloaded to the *./data* directory.

hello world
